EDUCATION

New York University Abu Dhabi <i>Bachelor of Science in Computer Science, Minors in Economics and Interactive Media</i>	Abu Dhabi, UAE Aug. 2022 – Present
New York University <i>Coursework in Computer Science, Data Science and Interactive Media Arts</i>	New York, USA Aug 2024 - Dec 2024
New York University <i>Coursework in Computer Science, Data Science, and Film and New Media</i>	Paris, France Jan 2024 - May 2024

EXPERIENCE

Full-Stack Developer — VSP EventOps Platform <i>Office of Visiting Student Programs, NYU Abu Dhabi</i>	Jan 2026 – Present Abu Dhabi, UAE
- Architecting and developing a staff-operated event management platform using Next.js, Node.js/Express, TypeScript, and PostgreSQL to streamline operations for visiting student programs. - Designed mission-critical attendance and bus-boarding workflows with visual verification and role-based access control, eliminating student login requirements and improving on-site operational efficiency. - Implemented secure session-based authentication, automated strike-tracking logic (0–2 system), and containerized the full-stack application with Docker for reproducible development and deployment.	
Global Education Officer (GEO) <i>Visiting Students Program, Office of Global Education, New York University Abu Dhabi</i>	Jan 2026 – Present Abu Dhabi, UAE
- Led large-scale advising, outreach, and end-to-end event execution for 200+ visiting students, streamlining communication, logistics, vendor coordination, and off-campus programs to increase participation by 20%. - Managed social media strategy end-to-end—from ideation and content creation to execution and audience engagement—designing graphics and drafting digital copy that expanded visibility across on-campus and off-campus programs.	
SkillSync, Full-Stack Developer — SWE Researcher <i>Capstone Project, New York University Abu Dhabi</i>	Sep 2025 – Dec 2025 Abu Dhabi, UAE
- Architected and deployed a production-ready AI-powered resume–job matching platform using FastAPI, Next.js (TypeScript), PostgreSQL, and GPT-4o, implementing automated skill extraction, competency gap analysis, and a structured 11-category technical skill taxonomy with a custom match-scoring algorithm. - Built secure authentication infrastructure (JWT, Google OAuth, bcrypt), developed personalized upskilling recommendations with dynamic PDF report generation, and deployed scalable backend/frontend services on Railway and Vercel to support authenticated profile management and multi-resume storage.	
Marketing and operations Intern <i>Elevate Ventures</i>	April 2025 – June 2025 Abu Dhabi, UAE
- Conducted market research and performance tracking to optimize digital campaigns and internal workflows, ensuring alignment between marketing objectives and business outcomes. - Designed and led UI/UX initiatives, managing a 4-person cross-functional team to prototype user-centered solutions and streamline project workflows across marketing and operations.	

TECHNICAL SKILLS

Programming Languages: C • C++ • Python • TypeScript • JavaScript • SQL
Frameworks & Libraries: FastAPI • Node.js • Express.js • Next.js • React • React Native • Pandas • NumPy • Scikit-learn • REST API
Databases & Cloud: PostgreSQL • MySQL • MongoDB • SQLite • Railway • Vercel
Tools & DevOps: Git • Docker • Docker Compose • REST APIs • JWT Authentication • Linux • npm
AI & Data: Machine Learning (Supervised & Unsupervised) • NLP • LLM Integration (OpenAI API, OpenCV OAuth)
• Data Analysis • Statistical Modeling • A/B Testing • EDA
Software Engineering: Full-Stack Development • API Design • System Architecture • Authentication & Authorization • Role-Based Access Control • Agile/Scrum
